Cross Sectional Shape:
C-section w/ helical spring
Accommodated Shaft Diameter:
0.250 inches
Seal Width:
Between 0.110 inches and 0.116 inches
Housing Bore Diameter:
Between 0.544 inches and 0.550 inches
Construction:
Solid
Material:
Plastic polytetrafluoroethylene and graphite jacket
Material Specification:
B19h5b fscm 07482 mfr ref single material response spring
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A032a0
