Cross Sectional Shape:

C-section w/ helical spring

Accommodated Shaft Diameter:

0.250 inches

Seal Width:

Between 0.110 inches and 0.116 inches

Housing Bore Diameter:

Between 0.544 inches and 0.550 inches

Construction:

Solid

Material:

Plastic polytetrafluoroethylene and graphite jacket

Material Specification:

B19h5b fscm 07482 mfr ref single material response spring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
