Cross Sectional Shape:

O-ring

Cross Section Outside Diameter:

Between 0.067 inches and 0.073 inches

Cross-sectional Height:

Between 0.067 inches and 0.073 inches

Center Hole Diameter:

Between 1.045 inches and 1.057 inches

Peripheral Diameter:

1.191 inches

Hardness Rating:

70.0 shore durometer a

Material:

Rubber

Material Specification:

Ams7272 assn standard single material response

Specification Data:

96906-ms9241 government standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
