Cross Sectional Shape:
O-ring
Cross Section Outside Diameter:
Between 0.067 inches and 0.073 inches
Cross-sectional Height:
Between 0.067 inches and 0.073 inches
Center Hole Diameter:
Between 0.171 inches and 0.181 inches
Peripheral Diameter:
0.316 inches
Hardness Rating:
70.0 shore durometer a
Material:
Rubber
Material Specification:
Ams7272 assn standard single material response
Specification Data:
96906-ms9241 government standard
Shelf Life:
N/a
