Cross Sectional Shape:

Double folded metal

Overall Length:

14.000 inches

End Application:

1560-00-074-3201

Functional Description:

Seal, door assembly, drag chute

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/4, cond o federal specification single material response

Style Designator:

Strip

Supplementary Features:

Fabrication matl 0.150 in. Thk by 2.000 in. W

Type/model Designation:

F-4e/gy/

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
