Cross Sectional Shape:

Cup

Cross-sectional Height:

Between 0.438 inches and 0.498 inches

Center Hole Diameter:

Between 2.941 inches and 2.946 inches

Peripheral Diameter:

Between 3.380 inches and 3.381 inches

Angle:

24.0 degrees

Criticality Code Justification:

Zzzy

Material:

Iron

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
