Fabrication Method:

Cellular, exploded

Overall Length:

29.000 inches

Tempurature Rating:

-40.0 degrees fahrenheit and 175.0 degrees fahrenheit

Cross-sectional Height:

2.000 inches

Cross-sectional Width:

0.062 inches

Material:

Rubber chloroprene class cr

Material Specification:

Ams 3197 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
