Cross Sectional Shape:

O-ring

Cross Section Outside Diameter:

Between 0.205 inches and 0.215 inches

Cross-sectional Height:

Between 0.205 inches and 0.215 inches

Center Hole Diameter:

Between 3.460 inches and 3.490 inches

Peripheral Diameter:

3.895 inches

Hardness Rating:

70.0 shore durometer a

Material:

Rubber

Material Specification:

Ms7272 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
