Cross Sectional Shape:

Square

Fabrication Method:

Woven lattice

Tempurature Rating:

-170.0 degrees fahrenheit and 500.0 degrees fahrenheit

Cross-sectional Height:

0.188 inches

Cross-sectional Width:

0.188 inches

Lubrication Material:

Plastic, polytetrafluoroethylene and oil

Special Features:

Non-asbestos garlock style 8922 synthepak

Material:

Fiber and plastic tetrafluoroethylene

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
