Overall Length:

11.130 inches

Overall Width:

0.870 inches

Cross-sectional Thickness:

Between 0.188 inches and 0.219 inches

Special Features:

Four rectangular shaped apertures

Material:

Rubber silicone class q

Material Specification:

Ams 3195 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
