·
Cross Sectional Shape:
Solid single or composition
Overall Length:
100.0 millimeters
Overall Width:
92.0 millimeters
Cross-sectional Thickness:
1.6 millimeters
Special Features:
Gasket has an off centered aperture with a 22 millimeter diameter
Material:
Rubber butadiene-acrylonitrile class nbr and cellulose
Material Specification:
N-8092 cagec 03938 mfr ref all material responses
Style Designator:
Rectangular
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A032a0
