Cross Sectional Shape:
Сир
Cross-sectional Thickness:
Between 0.045 inches and 0.060 inches
Cross-sectional Height:
0.500 inches
Center Hole Diameter:
Between 1.017 inches and 1.032 inches
Peripheral Diameter:
Between 3.438 inches and 3.448 inches
Material:
Leather cattlehide and rubber polysulfide class t
Material Specification:
Mil-I-40069 military specification 1st material response and thiokol, cagec 32063 mfr ref 2nd material response
Shelf Life:
N/a
Unit Of Measure:
<del></del>
Demilitarization:
No
Fiig:
A032a0
Mil-std (military Standard):
Mil-l-40069 spec.
