Cross Sectional Shape:

Cup

Cross-sectional Height:

Between 0.109 inches and 0.141 inches

Center Hole Diameter:

Between 0.508 inches and 0.510 inches

Peripheral Diameter:

Between 0.742 inches and 0.744 inches

Angle:

30.0 degrees

Criticality Code Justification:

Zzzy

Material:

Steel comp 316

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
