Cross Sectional Shape:

Rectangular metal

Aperture Diameter:

Between 0.505 inches and 0.510 inches

Cross-sectional Thickness:

Between 0.080 inches and 0.090 inches

Special Features:

dimensions 2.240 in. By 1.000 in.

Material:

Aluminum alloy 6061

Material Specification:

Ams4027 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
