Cross-sectional Height:

Between 1.025 inches and 1.035 inches

Center Hole Diameter:

Between 4.556 inches and 4.558 inches

Peripheral Diameter:

Between 5.213 inches and 5.217 inches

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-200/11 t73511 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Ps13201 type 2, class 1 fscm 76301 mfr ref single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
