Cross Sectional Shape:

Cup

Cross-sectional Height:

Between 0.984 inches and 1.016 inches

Center Hole Diameter:

Between 9.515 inches and 9.920 inches

Peripheral Diameter:

Between 10.760 inches and 10.763 inches

Angle:

41.0 degrees

Criticality Code Justification:

Zzzy

Special Features:

Over size 1; 80-110bhn

Material:

Steel

Material Specification:

Aisi 1005-1012 assn standard single material response

Precious Material:

Silver

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
