Cross Sectional Shape:

Single lip

Accommodated Shaft Diameter:

Between 8.870 inches and 8.880 inches

Seal Width:

0.750 inches

Housing Bore Diameter:

Between 10.120 inches and 10.130 inches

Construction:

Solid

Hardness Rating:

77.0 shore durometer a sealing element

Material:

Stainless steel spring

Material Specification:

L5 cagec 75165 mfr ref single material response sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
