Width:

36.000 inches

Thickness:

0.063 inches

Length:

36.000 inches

Surface Condition:

Smooth

Criticality Code Justification:

Zzzw

Special Features:

Material is made in accordance with fed-spec-hh-p-151 cl2

Material:

Rubber, synthetic

Material:

Rubber synthetic

Departure From Cited Document:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
