Cross Sectional Shape:

Spherical

Cross Section Inside Diameter:

Between 2.220 inches and 2.280 inches

Cross Section Outside Diameter:

2.410 inches

Cross-sectional Length:

Between 3.470 inches and 3.530 inches

Material:

Glass fiber and cotton and rubber silicone class q

Specification Data:

76301-st7-367 manufacturers standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A527p0
