Cross Sectional Shape:

Single lip

Accommodated Shaft Diameter:

8.385 inches

Seal Width:

Between 0.155 inches and 0.165 inches

Housing Bore Diameter:

8.900 inches

Construction:

Solid

Material:

Rubber synthetic sealing element

Material Specification:

Tms 22631 cagec 73342 mfr ref single material response sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
