Cross Sectional Shape:

Metal with soft filler

Hole Diameter:

Between 0.274 inches and 0.288 inches

Aperture Width:

Between 2.320 inches and 2.360 inches

Aperture Length:

Between 6.840 inches and 6.880 inches

Cross-sectional Thickness:

Between 0.050 inches and 0.070 inches

Bolt Hole Quantity:

8

Environmental Attribute Code:

Asbestos alternative products

Material:

Steel comp 321 jacket

Material Specification:

Ams 5510 assn standard single material response jacket

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
