Cross Sectional Shape:
O-ring
Cross-sectional Height:
Between 0.493 inches and 0.507 inches
Center Hole Diameter:
Between 113.500 inches and 114.000 inches
Criticality Code Justification:
Zzzy
Material:
Silicon
Reference Number Differentiating Characteristics:
Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A032a0
