Cross Sectional Shape:

C-section w/ helical spring

Accommodated Shaft Diameter:

Between 2.744 inches and 2.756 inches

Seal Width:

0.125 inches

Construction:

One-piece

Hardness Rating:

63.0 shore durometer d sealing element

Color:

Black

Material:

Steel comp 302 spring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
