Cross Sectional Shape:

O-ring

Cross-sectional Height:

Between 0.185 inches and 0.205 inches

Center Hole Diameter:

Between 0.748 inches and 0.752 inches

Criticality Code Justification:

Zzzy

Material:

Asbestos and plastic polytetrafluoroethylene

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
