Tempurature Rating:

440.0 degrees fahrenheit

Length:

1.50 inches

Product Name:

Compression packing

Special Features:

Applications: centrifugal rotary and reciprocating pumps, high pressure air water, sea water, brines, superheated steam, sludges, slurries, waste petroleum oils, petroleum fuels, solvents, chemicals; ideal pump packing for paper petroleum, steel, chemical mining industries

Material:

Fiber

Special Test Features:

Specifically designed for abrasive applications where the media contains 20% to 30% solids and particulate size to 50 to 80 microns

Supplementary Features:

Ph: 3-11, fpm: to 2500

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
