Cross-sectional Height:

Between 0.135 inches and 0.143 inches

Center Hole Diameter:

Between 1.036 inches and 1.056 inches

Peripheral Diameter:

1.324 inches

Criticality Code Justification:

Zzzy

Material:

Rubber butadiene-acrylonitrile class nbr sealing element

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
