Cross-sectional Height:
Between 0.135 inches and 0.143 inches
Center Hole Diameter:
Between 1.036 inches and 1.056 inches
Peripheral Diameter:
1.324 inches
Criticality Code Justification:
Zzzy
Material:
Rubber butadiene-acrylonitrile class nbr sealing element
Reference Number Differentiating Characteristics:
Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A032a0
