Cross Sectional Shape:

Spherical

Cross Section Inside Diameter:

Between 2.970 inches and 3.030 inches

Cross Section Outside Diameter:

3.080 inches

Cross-sectional Length:

Between 1.875 inches and 2.125 inches

Material:

Glass fiber and rubber silicone class q

Material Specification:

Mil-c-9084 military specification 1st material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A527p0

Mil-std (military Standard):

Mil-c-9084 spec.
