Cross Sectional Shape:

Circular

Cross Section Outside Diameter:

0.438 inches

End Application:

Cnu-411a/e; nha 8644300

Construction:

Solid

Hardness Rating:

40.0 shore durometer a

Special Features:

Dwg name: gasket; length at centerline 265.50+/-0.50; joint shall withstand 30 pound force

Material:

Rubber silicone class q

Material Specification:

Zz-r-765, gr 40, cl 2a federal specification single material response

Style Designator:

Oval

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
