Construction:

Solid

Criticality Code Justification:

Zzzy

Special Features:

Outside diameter: 5.250 inch, inside diameter: 4.687 inch, width: 1.125 inch, inside groove diameter: 0.687 inch, seal shall be injection molded

Material:

Plastic polyethylene

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A032a0
