Cross Sectional Shape:

Metal

Outside Diameter:

Between 0.0590 inches and 0.0650 inches

Aperture Diameter:

0.0300 inches

Cross Section Outside Diameter:

0.0160 inches

Material:

Copper alloy

Surface Treatment:

Tin

Style Designator:

Circular

Specification Data:

04614-5330a010 manufacturers specification control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
