Overall Length:

59.240 mils and 59.360 centimeters

Cross-sectional Height:

Between 0.750 inches and 0.850 inches

Cross-sectional Width:

Between 1.310 inches and 1.490 inches

End Application:

Mrap - common nsn - used on mrap no permanent wsd identified and 2 other weapon systems

End Cut Angle:

45.0 degrees

Material:

Rubber silicone class q

Material Specification:

Compound ss-0-1052 type te-42, caged 56329 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
