Cross Sectional Shape:

Spherical inside recessed

Temperature Rating:

-80.00 degrees fahrenheit and 550.00 degrees fahrenheit

Recess Diameter:

Between 5.590 inches and 5.610 inches

Cross Section Inside Diameter:

5.500 inches

Cross Section Outside Diameter:

5.830 inches

Recess Length:

Between 0.870 inches and 0.930 inches

Cross-sectional Length:

Between 1.500 inches and 1.620 inches

Raised Diameter Length:

Between 1.070 inches and 1.120 inches

Material:

Glass fiber and rubber silicone class q

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A527p0
