Cross Sectional Shape:

Rectangular metal

Hole Diameter:

0.260 inches

Overall Length:

3.796 inches

Cross-sectional Thickness:

Between 0.014 inches and 0.016 inches

Bolt Hole Quantity:

6

Special Features:

Aperature right side 0.590 in. Diameter; aperature left side 1.594 in. Square

Material:

Aluminum alloy 1100

Material Specification:

Ams 4001 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
