Accommodated Shaft Diameter:

Between 2.568 inches and 2.570 inches

Seal Width:

0.190 inches

End Application:

Afterbody section, torpedo mk50

Housing Bore Diameter:

2.240 inches

Special Features:

Graphite filled polytetraflouroethylene

Material:

Aluminum alloy 5052

Material Specification:

Ams 4016 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
