Cross Sectional Shape:

Rectangular

Nonmetallic Hardness Rating:

24.0 astm scale

Min. Tensile Strength (psi):

35 pounds per square inch

Temperature Rating:

-30.0 degrees fahrenheit and 200.0 degrees fahrenheit

Cross-sectional Height:

0.062 inches

Cross-sectional Width:

0.750 inches

Special Features:

One side has adhesive

Color:

Black both sides

Material:

Rubber, polyurethane foam

Material:

Rubber, polyurethane foam

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
