Cross-sectional Height:
Between 0.100 inches and 0.106 inches
Center Hole Diameter:
Between 0.665 inches and 0.683 inches
Peripheral Diameter:
0.880 inches
Elongation Percentage:
150
Criticality Code Justification:
Zzzy
Reference Number Differentiating Characteristics:
Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications
Shelf Life:
N/a
Unit Of Measure:
<del></del>
Demilitarization:
No
Fiig:
A032a0
