Hole Diameter:

0.250 inches

Overall Length:

3.250 inches

Overall Width:

3.190 inches

Aperture Diameter:

2.830 inches

Outside Corner Radius:

0.310 inches

Center To Center Distance Between Bolt Holes Along Width:

2.320 inches

Center To Center Distance Between Bolt Holes Along Length:

2.320 inches

Cross-sectional Thickness:

0.560 inches

Material:

Rubber silicone class q

Material Specification:

Lt-50 dow corning, cagec 71984 mfr ref single material response and cadox ts 50, 97854 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
