**Cross Sectional Shape:**

Rectangular

**Fabrication Method:**

Cellular, unexploded

**Tempurature Rating:**

-100.0 degrees fahrenheit and 500.0 degrees fahrenheit

**Length:**

Between 2.230 inches and 2.470 inches

**Surface Condition:**

Smooth both sides

**Cross-sectional Height:**

Between 4.800 inches and 5.040 inches

**Cross-sectional Width:**

Between 0.094 inches and 0.156 inches

**Material:**

Rubber, ams 3195

**Material:**

Rubber silicone class q

**Material Specification:**

Ams 3195 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A26800
