Cross Sectional Shape:

C-section w/ flat spring

Tempurature Rating:

-40.0 degrees fahrenheit and 160.0 degrees fahrenheit

Accommodated Shaft Diameter:

Between 0.309 inches and 0.311 inches

Housing Bore Diameter:

Between 0.489 inches and 0.491 inches

Construction:

Solid

Special Features:

Spring, cres 17-7ph

Material:

Plastic polytetrafluoroethylene sealing element

Supplementary Features:

Package in heat sealed bag, isolated from cardboard support, to avoid contamination

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
