Cross Sectional Shape:

Oval

Temperature Rating:

-65.0 degrees fahrenheit and 600.0 degrees fahrenheit

Cross-sectional Height:

Between 0.225 inches and 0.250 inches

Center Hole Diameter:

Between 1.970 inches and 2.000 inches

Peripheral Diameter:

2.600 inches

Special Features:

Coated with dry film lubricant

Color:

White

Material:

Rubber silicone class q and glass fiber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
