Cross Sectional Shape:

Trapezoid

Minor Width:

1.688 inches

Cross-sectional Height:

1.000 inches

Cross-sectional Width:

2.000 inches

Construction:

One-piece

Special Features:

Between 55.0 and 65.0 durometer, with 3 each through holes, 0.406 inch diameter, equally spaced on 0.875 inch diameter circle from center

Color:

Black

Material:

Rubber synthetic

Material Specification:

9545k23, cage 39428 or equal mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
