Center Hole Diameter:

Between 0.446 inches and 0.461 inches

Peripheral Diameter:

Between 0.654 inches and 0.659 inches

Angle:

37.0 degrees

Special Features:

Four equally spaced friction flats

Material:

Copper alloy

Material Specification:

Qq-c-576 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
