Cross Sectional Shape:

Rectangular metal

Fabrication Method:

Solid

Hole Diameter:

0.281 inches

End Radius:

0.656 inches

Aperture Diameter:

0.828 inches

Center To Center Distance Between Bolt Holes Along Length:

1.750 inches

Cross-sectional Thickness:

Between 0.027 inches and 0.037 inches

End Application:

T56 engine

Side Radius:

0.312 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
