Cross Sectional Shape:

Rectangular

Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

Not rated

Temperature Rating:

-100.0 degrees fahrenheit and 500.0 degrees fahrenheit

Length:

17.820 inches

Surface Condition:

Any acceptable both sides

Cross-sectional Height:

0.250 inches

Cross-sectional Width:

0.125 inches

Special Features:

Material is silicone sponge rubber iaw source control dwg. G202206, cage 49956

Material:

Rubber, synthetic

Material:

Rubber synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
