Cross Sectional Shape:

Metal with soft filler

Outside Diameter:

1.000 inches

Cross-sectional Thickness:

0.078 inches

Environmental Attribute Code:

Asbestos alternative products

Special Features:

Item contains non-asbestos material

Material:

Asphalt core and rubber butadiene-acrylonitrile class nbr core

Material Specification:

Hh-g-101, type 3 federal specification single material response core

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
