**Cross Sectional Shape:**

O-ring

**Cross Section Outside Diameter:**

Between 0.205 inches and 0.215 inches

**Cross-sectional Height:**

Between 0.205 inches and 0.215 inches

**Center Hole Diameter:**

Between 5.077 inches and 5.123 inches

**Peripheral Diameter:**

5.520 inches

**Hardness Rating:**

70.0 shore durometer a

**Material:**

Rubber butadiene-acrylonitrile class nbr

**Material Specification:**

Ams 7272-80 assn standard single material response

**Specification Data:**

96906-ms9241 government standard

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A032a0
