Cross Sectional Shape:
O-ring
Cross Section Outside Diameter:
Between 0.135 inches and 0.143 inches
Cross-sectional Height:
Between 0.135 inches and 0.143 inches
Center Hole Diameter:
Between 8.204 inches and 8.264 inches
Peripheral Diameter:
8.512 inches
Hardness Rating:
70.0 shore durometer a
Material:
Rubber butadiene-acrylonitrile class nbr
Material Specification:
Ams 7272-80 assn standard single material response
Specification Data:
96906-ms9241 government standard
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A032a0
