End Application:

Cpv relief valve (.125 orifice) .375 o-seal union end connections

Criticality Code Justification:

Zzzw

Product Name:

Retainer (o-ring)

Material:

Stainless steel

Material Specification:

Qq-s-763, 300 s/s federal standard single material response

Departure From Cited Document:

Navy special material identification cope cp per mil-std-1330-percision cleaning of shipboard O2, he-O2, and n2 systems

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
