Cross Sectional Shape:

Circular

Tempurature Rating:

250.0 degrees fahrenheit

Length:

25.000 feet

End Application:

C.P.F. Main propulsion steering gear & hydraulics, cage k0189

Special Features:

Recommended applications: oil; water; low to medium pressure

Material:

Rubber, neoprene

Material:

Rubber chloroprene class cr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
